Calgary Exhibition and Stampede July 9th to 14th

There is no doubt about the fact that the Calgary Exhibition and Stampede, to be held July 9th to 14th, will be a great success. The co-operation that is being extended and the special features that have been arranged are exceptional. In addition to celebrating the 50th anniversary of the incorporation of Calgary, there are the usual features that will be staged on a larger scale than ever. These will include live stock, industrial and domestic exhibits for which the prizes have been increased by over \$1,000; the Stampede Parade; the Stampede; for which H.R.H. The Prince of Wales has just donated a challenge trophy and gold belt buckle; the Champion Canadian bucking horse rider, with an increase in general prizes of over \$400; the mammoth stage production "The Show of a Century"; running horse races, with an addition in purses of \$700 and the addition of a second starting chute, so that all races can be started from the chutes; the Live Stock Review for girls and boys with free prizes of ponies and dogs; gorgeous fire works programme; horse shoe pitching tournament; special Friday Shopping Day; Boy Scouts' model camp; outstanding collection of paintings for the Art Gallery; Morning Street Display and the Dog Show.

Special railway passenger fares are to be in force from Saskatchewan, Alberta and British Columbia mainland points, and two special excursions will be run from Alberta and British Columbia mainland points, good going July 10th and returning to the 15th.

Very low admission charges will be in force and the programme will without question be the most interesting ever arranged for the Calgary Exhibition and Stampede. Price list of the Exhibition, the Stampede and races, folder, hand and general information may be obtained from E. L. Richardson, General Manager, Calgary.

The school board of the Arrowwood Consolidated S.D. have considered it advisable to re-hire the present staff for the coming year. Miss E. Jennejohn, Principal, Mr. H. McLaughlin, Mr. E. Sharpe, and Miss L. Spencer and Miss E. Andrews. Mr. Sharpe has accepted a position as principal of the Queenstown school and the very best wishes go with him to his new work.

Mr. and Mrs. J. S. Culp and Mr. J. Wieand returned last Saturday from the recent International Conference of the Church of the Brethren, held at

Buffalo Hill News

Mr. and Mrs. Roscoe Shatto and family left last Saturday on a motor trip to Washington, where they will visit with relatives. They expect to be away for three weeks or a month. Mrs. Fisher is staying at their place during their absence.

The Buffalo School term ended with a picnic last Thursday. The picnic was a great success and the good things that go with were very much enjoyed. A game of softball was played between the Buffalo Hill team and the West Arrowwood team from Herrington. The former team won 21-10. This is their unbroken record for four or five games.

Mr. R. A. Melvor, the Buffalo School teacher, has been re-engaged for another year.

The Canadian Thistle

Canada Thistle flourishes in varying degrees in all parts of western Canada. It is a native of Europe and was one of the earliest weeds introduced into Canada. The North-West Grain Dealers' Association has financed a survey conducted by Professors G. P. McLeod and W. T. Laidlaw, weed control authorities of the Agricultural College of Manitoba University to determine the most satisfactory means of controlling this weed. The results of this study have been prepared in pamphlet form and these are now available without charge at all line country elevators along with other pamphlets dealing with control of Couch Grass, Sow Thistle, and details as to the loss caused through weeds in Western Canada.

Canada Thistle spreads through seed, running roots, seed grain, and manure. It causes damage through crowding out field and forage crops by taking plant food and moisture from and reducing value of crops; by increasing the difficulty of cultivation and making

(Continued on page 4)

A very enjoyable picnic was held last Sunday at the Ward lease, when the following were in attendance: Mr. and Mrs. G. Campbell and family, of Calgary, Mr. and Mrs. J. Molin and family of Baintree, Mr. and Mrs. R. Hill and daughter, Mr. and Mrs. G. Jones and Betty Rhea, Mr. E. Ross, Mr. and Mrs. R. H. Bishop and sons, Mr. and Mrs. W. H. Ellis, Mr. and Mrs. M. H. Ward and family, Miss L. Kresman, Messrs. J. Webb, J. Mooney and N. Oliver.

The Iowa State College. They were accompanied on their return by Mr. Albert Hollinger. Mr. Hollinger left on Monday for his home at Kindersley, Sask.

The Marketing Act

The best that can be said for the new Canadian Marketing Act is that it means well. It is an attempt to regulate farm production with fond hope that some way or other higher prices may result, without in any way suggesting how it can be brought about.

It is a pale imitation of the N.R.A. Sovietism and Musolinism combined. It is economically unsound and therefore cannot be relied upon to produce the results desired.

It is an attempt by compulsion (planned economy, it is called) to force growers to pool their products, such products to be disposed of by a central selling agency. Manitoba's experience with central selling agencies is not such as to inspire confidence.

The Act, if it should come into effect throughout Canada, would carry with it vast overhead administration expense, all of which would of necessity come out of the farmers' pocket. It would make room for another army of parasitical non-producers taking toll out of every bushel of wheat, every pound of beef or pork the farmers have to sell.

Why the strong element of compulsion in the bill? Why is the farmer not to be allowed some latitude in his own affairs? It is simply an admission that the scheme cannot stand on its own feet, and that individual enterprise is to be destroyed as far as possible.

All co-operative enterprises are fine in theory but the majority are destroyed by lack of practical commonsense. To be successful any co-operative movement must demonstrate to the public its ability to serve either by more equitable and wider distribution or by enhanced prices. If this is done compulsion will never be needed. People will flock to join the scheme. The poultry pool is a splendid illustration of voluntary co-operative effort.

The Act, if carried out to limit of its provisions will destroy individual initiative, and results in a regimented agriculture, closely allied to that of Italy, Germany and Russia.

Have the farmers of Canada reached that stage where they no longer resent being told what they shall grow, how much they may sell, and to whom?

It is too much of a leap in the dark for those who, by tradition and temperament still desire scope for individual enterprise.

The Marketing Act means well, there is no doubt, but it is too full of disastrous possibilities to entice the farmers of Canada.—Editorial from Killarney Guide.

The St. Columbus Altar Society met at home of Mrs. J. A. Rainville on Tuesday, June 28th. Seven members and two visitors were present. The meeting opened in the usual way by repeating the Lord's Prayer. A vote of thanks was tendered to Mr. E. E. Jacques for the donation of the candy for the noon and to those who set up the tables and to all that helped in any way. It was decided to cancel the July meeting. After the business meeting Mrs. E. D. Archambault and Mrs. D. Vindar served dainty refreshments.

Vacation School

The Arrowwood co-operative Daily Vacation Bible School has a good start and promises to be quite successful. The first session was held on Tuesday because Monday was a holiday. There will be a Saturday session. The school will continue next week, closing on Friday. The closing program and demonstration will be one week from Sunday evening. The Bible School periods are from nine to eleven thirty forenoon except Sunday. The school is held in the Church of the Brethren. All work is very graciously donated, including the transporting of pupils from the country.

Malcolm Taylor and Vera Haskell are in charge of the Intermediate department. Clarence Brubaker, Evelyn Burris and Lola Arney, Junior department. Edna Beagle, Willa Leith and Sarah Duncan, primary department. Mildred Kaufman, Ruth Brubaker and Margaret Fisher, beginners class. Mrs. Phillips is in charge of the piano.

All the above mentioned have already proven their fitness for the tasks assigned. This insures a successful school. Parents may well make it possible for their children to attend even they have gotten a late start.

Church of the Brethren Notes

All those wishing to attend the Brethren Young People's Camp should register not later than Sunday evening, July 8th. Registration fee is \$1.50. The registration office at the Brethren Church if open forenoons and all day Sunday.

The Arrowwood young people will be hostess to a Young People's camp July 13-17. Any young people from this or any other community are welcome to attend. This is not limited to any religious denomination.

All are welcome. Rev. Mr. A. F. Brightbill, professor of Sacred Music in Bethany Biblical Seminary, Chicago, will be the director. Only \$1.50 for the entire term. That's cheaper than living at home.

Quite a number are coming from Irricana and from Kindersley, Sask.

Card of Thanks

The Arrowwood P.T.A. Executive and teachers, wish to take this opportunity of thanking everyone in the district, who by their help and donations made it possible to put over the School Picnic. There is no question but that it was greatly appreciated by the children.

NOTICE TO CREDITORS AND CLAIMANTS

IN THE ESTATE of Jessie May Kiser, late of Arrowwood, in the Province of Alberta, married woman, deceased.

NOTICE is hereby given that all persons having claims upon the estate of the above named Jessie May Kiser, who died on the 21st day of April, 1934, are requested to file with John Boyd, Esq., Solicitor for the Executors, by the 26th day of July, A.D. 1934, a full statement duly verified of their claims and of any securities held by them, and that after the date the Executors will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to their attention.

DATED this 17th day of June A.D. 1934.

John Boyd,
Solicitor for the Executors,
Address: Gleichen, Alberta.

Arrowwood Notes

FARM FOR SALE—Must be sold to settle estate. Apply to C. Royer, or Resource Office.

Mr. and Mrs. F. Johnston spent the week-end visiting at Champion and Stavely.

Mr. and Mrs. G. Leith and family, spent the week-end with Mr. and Mrs. Sawyer at Glenview.

The Misses E. Jennejohn, L. Spencer and E. Andrews are attending Summer School at Edmonton.

Sunday School will not be held in the United Church during the month of July.

Mr. and Mrs. R. N. Moir and family visited over the week-end with friends in Lethbridge.

Miss Shirley and Jackie Ward returned home on Sunday after visiting in Calgary.

The W.A. of the United Church will meet at the home of Mrs. A. H. Tharle on Thursday, July 12th.

A catechism class opened yesterday, with Mr. Clayton Walls of Gleichen, as their teacher.

Miss Audrey Ward is visiting for a few days in Calgary, at the home of Mr. and Mrs. Geo. Campbell.

Mr. and Mrs. N. Jacques, Mrs. B. Thorpe, and Mrs. A. Jacques of Calgary, were visitors at the home of Mr. and Mrs. E. E. Jacques.

Mrs. P. H. Coleman, of Milo, wishes to inform her pupils here that she will not be visiting Arrowwood during the month of July.

Mr. and Mrs. Neil Thoms and Mr. and Mrs. Cheeseman, of Calgary, visited over the holiday at the home of Mrs. Thoms' sister, Mrs. N. McCollman.

The Strathmore Baseball Club will play the Arrowwood Club here on Friday night at 8.30.

Left at the Resource Office, a headed hand-bag. Owner may have same by applying.

Mr. W. E. Bishop, father of Mrs. E. J. Liesemer, has arrived from Vancouver to spend the summer at the home of Dr. and Mrs. E. J. Liesemer.

Miss Lola Arney had the misfortune last week to have her fingers crushed in a car door. At present we learn she is progressing satisfactorily.

"Drum Taps" is the main feature along with a good comedy and another chapter of "Phantom of the Air," at the Arrowwood theatre tonight.

Mr. and Mrs. K. L. Lyle and daughter and Mr. and Mrs. R. Jones and children of Calgary, visited over the week-end at the home of Mr. and Mrs. W. C. Lyle.

Service at St. Columbus Church will commence at 9.30 a.m. next Sunday instead of 9 a.m., as announced at the last service.

The small son of Mr. E. Swanson met with a serious accident on Sunday. While riding a bicycle, he crashed into a barbed wire fence, tearing his mouth and cheek. He was rushed to Dr. E. J. Liesemer for treatment.

Mrs. J. A. Rainville is visiting with her daughter, Mrs. E. L. Sawyer at Glenview. She was accompanied by her granddaughter, Audrey Sawyer, who has been visiting her aunt, Mrs. N. J. Lord for the past three weeks.

Mr. E. Larson returned to his duties in the Bank of Nova Scotia on Thursday of last week, after spending his holidays at his home in Saskatchewan.

The rainfall for the past week was 1.16 inches. This makes a total from the first of April of 6.04 in.

ARGENTINE WHEAT SITUATION

(Average Annual Wheat Production 140 million bushels)

Argentine farmers produce three important crops—Cattle, Wheat and Flax. Of late years much acreage formerly devoted to the production of Wheat and Flax has been put into wheat, due to the fact that the world depression has made it difficult for millions of families to purchase very much beef, and difficult even for people to afford to paint their houses and buildings.

As the wheat harvest seasonally goes back to much, acreage for all winter wheat and more will be able to be raised, more wheat will be produced. The wheat and flax crops in the Argentine will be taken out of wheat and more will be able to be raised, more wheat will be produced. The wheat and flax crops in the Argentine will be taken out of wheat and more will be able to be raised, more wheat will be produced.

Youth Defeats Malcolm Campbell In Home-Made Car

A youngster in what was virtually a home-made car had the thrill of holding the world's fastest land speed record. It happened at Brooklands in the fourth race.

He was W. E. Harker and he proudly called his car a "Harker Special." It was driven by two small M.G. engines coupled up with great skill by this young engineer. Campbell's car was the giant Stinson, of 3,916 c.c. The Harker Special was only 1,492 c.c.

Campbell started scratch. Mr. Harker in his home-made car had a start of 31 seconds. Campbell drove with all his accustomed skill. He overhauled the whole field, but found his master in Mr. Harker and his Harker car.

Speedy Rail Service

C.P.R. Provides Faster, More Frequent Service Between Regina and Moose Jaw

The Canadian Pacific has inaugurated a special gas-electric service between Regina and Moose Jaw, making seven trips each way daily except Sunday and four trips on Sundays. In addition, fares have been reduced as follows:—One way \$12.50, return \$15.00 with special week-end fare of \$14.50.

This particularly fast, comfortable service between the two cities should prove very convenient, and popular with the travelling public.

Little Helps For This Week

"Blessed be the Lord who daily leads us with benefits." Psalm 135:6.

Source of life's refreshing springs. Whose presence in my heart sustains me. Thy love ordains me pleasant things. Thy mercy orders all that pains me. —A. L. Waring.

When I survey the occurrences of men, I feel as if I am the finger of God. I can perceive nothing but an abyss and mass of sorceries, either in general to mankind or in particular to myself. Those things which others term crimes, afflictions, judgments, or misfortunes, to me who inquire further into them than their visible effects they both appear and have ever proved the secret and dissimulated favours of His affection. —Sir T. Browne.

Administering The Law

In Central Park, New York, on a forbidden stretch of turf grass in the May morning, some children were playing. Suddenly the law swooped down on them, hawk-like; two cops in a police car, big with duty, turned their car off the driveway without so much as to open the lawn and right across it to where the children stood. "Get off the grass!" The children ran. The cops backed their car around and scuttled away. Peace returned. And again the hawk-like blades of grass struggled slowly back to their feet.

A New-Found Continent

Discovered On Pacific Floor By Echoes From Deep Finder

Mountains higher than Mount Everest, huge plateaus twice the width of America and great depths that drop more than six miles down—these are characteristic of a new-found "continent." This hitherto unknown territory stretches beneath the surface of the North Pacific. It was discovered by echoes from the depth finder in the U.S.S. Ramapo. The Ramapo has been on a survey of the Pacific ocean bottom. It found that the submerged territory is not marked by steep depths in its separation from North America. In fact, appears to be a raised eastern shoulder to the submerged continent, but the west coast of Asia shows a series of tremendous depths. From north to south in the west portion of the "continent" is a mammoth mountain ridge with towering peaks which are known to Pacific mariners as islands, banks and reefs.

Deer Causes Grief

Jumps Over Railway Gas Car And Kills Two Men

The antics of a frightened deer sent two men to hospital at Sioux Outlook, Ont. The deer jumped over a speeding gas car on the Canadian National Railway and swept Pete Pohorac and Steve Illich off the platform.

The men were found in a dazed condition near the tracks, Illich with a broken leg and Pohorac badly shaken up.

Mass Suggestion

Australian School Children At Candy And Thought They Were Poisoned

Fifteen Newcastle school children, declaring themselves poisoned by candy, were rushed, writing in agony, to a hospital in ambulances, says a despatch from Sydney, Australia.

Physicians examined the candies and pronounced them perfectly harmless. "An amazing example of mass suggestion," said a physician.

A farmer from the 10th century was not so great a genius in familiarizing himself with the tools and implements in farm use 100 years ago, so little progress had been made in farm equipment in 900 years.

There are 6,600 deaths annually in the United States from whooping cough.

THE LITTLE DARLINGS, I WOULD'N'T SELL 'EM FOR A MILLION DOLLARS LONGER. I WOUL'D TROUDLE THEM UP TO OGDEN'S. I'D TAKE 'EM FROM GUY, 'EM, NO SIR.

OGDEN'S CUT PLUG

An irreparable loss. And each of them was reluctant to enter into that hideous world of doubt and accusation and wonder where they had faced each other once for just a few horrible moments. They evaded that experience with dread.

This delightful solitude of shared understanding and faith was so much more in keeping with the beauty of their love, that they kept within its boundaries even as one who drives along a smooth highway without diverting into uncertain by-roads and dangerous places.

Together, they collected dry wood for a crackling standing fire, watched the gray smoke curl upward and the red coals emerge which drew them into the glowing warmth with the early retreat of the sun and the husband appeared of twilight.

Peter broiled the two club steaks on a diminutive grill over the fire, their succulent flavor mingled with the aroma of bubbling coffee, pungent smoke and sharp tang of autumn marsh. The moist humidity in the firelight, and turned again reluctantly toward the strife of toil and heartache, building fortresses and dodging traffic that was their civilization.

(To Be Continued)

Will Not Be Exhibited

Inventor Consents To Suppression Of Death Ray Machine

An outstanding invention of the century, a death ray machine, will not be exhibited at the National Inventors' Congress at Omaha, Nebraska, President A. G. Burns, Oakland, Cal., told delegates.

The invention has been suppressed by the United States government, with the consent of the inventor, Dr. Longenecker, turned the ray on rabbits, dogs and cats. They fell over, instantly killed, their blood turned to water. The same thing happened to pigeons, unskinned and alive. It was killed by the death ray. It was killed by the death ray.

"I witnessed a demonstration of the machine, by invitation in Cleveland last October," Burns said. "It resembled a motion-picture projection machine in appearance. Several government scientists were there.

Dr. Longenecker turned the ray on rabbits, dogs and cats. They fell over, instantly killed, their blood turned to water. The same thing happened to pigeons, unskinned and alive. It was killed by the death ray. It was killed by the death ray.

"Because of its terrible death-dealing possibilities, Dr. Longenecker, according to Burns, readily agreed with government representatives that the machine be suppressed.

THE RHYMING OPTIMIST

By Aline Michaels

LOVES CROWN

Nothing of this did you speak, O, my love, When you came my way; Only your voice was the voice of a dove And your words were gay.

And your words were gay; And your words were gay; And your words were gay; And your words were gay.

Nothing of this, O, my love, did you tell, And I tremble now; Strangely the winds to a tempest swell

And the creaking hough Splinters and falls in the gusts of life.

That are swooping down; Yet, how is it your girlhood's frail Have become a crown.

The United Kingdom remains Canada's most important market for canned foods, taking over 92 per cent of Canada's total exports of canned fruit in the last fiscal year, and over 41 per cent of the canned vegetables.

There is frequently more power in a woman's tears than in a man's argument.

The most valuable pearls are produced in tropical waters.

to do there, and you are away all day."

"But it's a pleasant place to rest and I thought it would be a good change for you."

"Say, I'm no leveller. I have to be busy—doing something. You don't suppose I'm going to wait around for that exhibit piece, expecting to win, do you?" He laughed ironically.

"From now on, I am going to accomplish something worthwhile. I am ready have a standing order from Avis, and I'm going to get to work on it."

At every mention of Avis' name Camilla experienced a shock of pained remembrance and hate. There could be no explanation of her ready accusation of Camilla after the tragedy. She was trying desperately to separate her from Peter's love. Camilla held fast to the belief that she never could do that, however. Peter was changed, but not ever his love for her had changed.

It was his work and anxiety and his mind could restore him to the normal happy Peter of the springtime of their love.

His remark about starting work on some sculpture for Avis brought to her mind reluctant visions of their hours of consultation and planning together. Avis would make the most of that opportunity, which was undoubtedly her reason for having Peter do the work. Of course, she was glad for Peter to have a good client like Avis, just now when he needed definite encouragement, she tried to assure herself. But there was no denying the significance of the situation. She tried to appear interested, as she would have been in any other such prospect.

"What kind of things are you doing for her?" she inquired casually.

"I don't know. Some studio stuff, and garden pieces for her mother. That is what I've got to get busy and find out. It means that I'll have to go to the Werth's for tea and get acquainted with the family."

"I've got to go to the Werth's for tea and get acquainted with the family. I've got to go to the Werth's for tea and get acquainted with the family."

"I've got to go to the Werth's for tea and get acquainted with the family. I've got to go to the Werth's for tea and get acquainted with the family."

The Canadian Thistle

(Continued from page 1)

ing necessary the purchase of special machinery as well as causing increased cultivation and more frequent summer fallow. The booklet outlines that the means of controlling this weed is through keeping the infested land entirely black for one complete growing season. Means of doing this are outlined for various types of soil as well as control through chemicals and smothering. Much valuable information is contained in these pamphlets and farmers are urged to obtain them from any line elevator.

Communications

When the rains come and our streets are muddy, why not do all the driving on one-half of the road, leaving the other side smoothly graded until it is dry? This system was followed for years in Illinois, U.S.A., in accordance with the law.

That part which is left smooth dries off so much more quickly than what is travelled when wet. When the smooth side is ready for traffic, the travelled part is still moist enough for grading. Thus we would have good streets much sooner. This system would make it possible to have smoother streets all the time, for the fresh grade would not need to be cut by traffic until dry.

To make this effective, a council enactment would probably be necessary. Public opinion in favor of such a system would be a great help to the council in deciding for such a measure.

How about a slogan, such as, "Preserve our Streets"? Why not tell the councilmen of your willingness to co-operate in such a plan?

JOHN WIEAND

With the Ball Players

The Arrowwood Seniors completely out-classed the Calgary Checkered Athletic Club Wednesday evening last week when they pounded out a 25-3 victory over the city aggregation. After the first inning the local boys hit steadily and continuously to establish a lead big enough for several games. Fred Miller pitching for Arrowwood had a comparatively easy time of it and struck out 13 of the 27 men who faced him. To select any other individuals to feature in the game would be a difficult matter as all the local boys played well and hit well. The management and local players regret very much the disappointing display rendered by the city club.

Excellent Ball
Playing at Lomond Saturday evening the local club gave the fans assembled there a real baseball thriller when a closely fought game was played. Melvin Bowman was on the mound for the Arrowwood nine and pitching to Archambault, demonstrated his ability at baffling the opponents. The eastern nine were given a "break" in the second inning on a "double play" decision which favored the Lomond nine. The proved to be the critical point of the game and gave Lomond 4 runs. Putting on a ninth inning rally Arrowwood were in a position to tie the score, but the Lomond pitcher

struck out the last two batters to retire the side.

The CAVALIER MAINTAINS Goodrich LEADERSHIP

Here is a tire that ends forever the need of buying cheap, "bargain-built" tires in order to save money. Not just another low priced tire—but an AA Quality tire selling like wildfire.

AA Quality is the reason. It's a big extra sturdy tire—especially processed to give longer wear. And its amazing low price removes the last possible reason for buying cheap "bargain-built" tires in order to save money.

FREE MILES

Come in and let us show you the new AA Quality tire. Feel it. Press your hand on the non-skid tread. You will know at once that here is the answer to greater tire mileage at a money-saving price.

Information Gathered From Report of Conference of the Church of the Brethren

The following article appeared in the Daily Tribune-Times of Ames, Iowa. The recent International Conference of the Church of the Brethren held at Iowa State College, Ames, gave occasion for the article. While the Church of the Brethren has many distinctive features setting it apart as a Christian sect, its principal theme is universal peace and opposition to war and militarism. It claims special distinction as a pacifist organization. The church has had a brilliant history, marked by persecutions, by wanderings, by colonial development and pioneering, and in modern times by evangelistic expansion and staunch support of ideas that inspired its forefathers.

The church was organized in 1708 at Schwartzau, Germany. It was not of the pietistic group but had some things in common with that faith. Because of religious persecution fostered by the opposition of the sect to war and to compulsory military service, its members began to migrate, first to Holland, then England and subsequently to America where they settled colonies in eastern Pennsylvania.

The high moral standards of the Brethren and the rigid disciplinary methods were against a rapid growth of these people, despite the fact that they were strongly evangelistic.

Belief that slavery was wrong and that no Christian could conscientiously engage in the business, kept the church out of the south. With the exception of Virginia and Tennessee, few churches were established in the southland.

Being a rural people and experienced farmers, they again began a migration from Pennsylvania westward across the continent, following the lanes of agricultural development, and establishing local communities in many spots across the middlewest. This migration extended well through nineteenth century, and laid the foundation for the church organization of today.

The present denomination comprises about 154,000 members in the United States and

Canada, with a far-reaching missionary organization in India, China and Africa. The national organization, or conferences, comprises 40 districts.

Conference officers, in addition to the chairman and secretaries of the various boards, include a moderator, who is Dr. Otto Winger; a reader, Dr. C. C. Ellis, president of Juniata college, Huntington, Pa.; a general secretary, Rev. J. E. Miller and an executive secretary, Dr. J. W. Lear.

The church is a strong supporter of Christian education, and maintains denominational colleges at Bridgewater, Va., Elizabethtown, Pa., Huntingdon, Pa., North Manchester, Ind., McPherson, Kan., La Verne, Calif., a junior college at New Windsor, Md., a theological seminary in Chicago.

A unique, form of baptism gave denomination members in the early years the name of "Dankers" or sometimes the "Dankards," the latter form being incorrect, however. Other peculiarities of the sect were in matters of dress, certain distinctive forms still retained custom among the older men and women.

The denomination claims distinction as one of the oldest peace societies in existence. The first organization in Germany frowned upon coercion in religion and aggression in warfare by the state. Since war is sin in the eyes of its faith, it holds that taking up arms or abetting war is also wrong.

The temperance issue is another moral question ardently supported by the church throughout her entire history. It is has refused membership to the basic units of all other institutions and the network of society.

Companionate marriage and divorce for any cause other than adultery are vehemently discouraged. The church believes that the Christian home is the basic unit of all other institutions and the network of society.

Watch the Ford Go By!

Have you ever read and considered the 100 reasons why you should buy a FORD? If you haven't you are one of a few that haven't. The increased number of new Ford owners is sufficient proof that the New Ford is still Canadian's most popular car.

The new Ford has all the latest improvements in automobile construction, Heavy X Frame Construction, Silent Gears, Increased Power and Speed, Individual Wheel Action, Scalloped Mounted Tail Pinion, which is found only in high priced cars.

For with their motor exchange policy, carburetor, ignition and fuel pump exchange, makes it by far the most outstanding value on the market today.

The season is rapidly drawing near when you must be considering your needs for handling this crop. Binders, Combines and Power Plants.

Plan your orders early for your harvester repair needs so as to insure better service.

Mrs. Smith had a doubtful gleam in her eyes as she entered the butcher's and said in a smothering voice, Mr. Ripley, how do you account for the fact that there was a piece of rubber tire in one of the sausages I bought here yesterday afternoon?

Ah, my dear Madam, responded the butcher, rising to the occasion, that just serves to illustrate how the motor car is replacing the horse everywhere nowadays.
